

## Let's Make a Film

A Fun, Cost Effective Programme  
That Adds a Little Bit of Movie  
Magic To Your Curriculum.

### MISSION STATEMENT

To foster an environment where  
young storytellers can practice  
skills, make mistakes,  
experiment and generally  
develop their craft.

Fueling  
Imagination

Building  
Confidence

### OPPORTUNITY

New Media offers young people  
an amazing opportunity to tell  
their own stories. Our course is  
designed to provide them with  
the knowledge, confidence and  
skills to do just that.

Telling Their  
Own Stories

### CURRICULUM

Modules are designed to comply  
with Key Learning Objectives  
within various strands of the  
Primary Curriculum such as  
Literacy, SESE, SPHE and ART.

Promote the services  
your school offers

Customers consistently tell us  
how impressed parents are  
with this unique and exciting  
project.

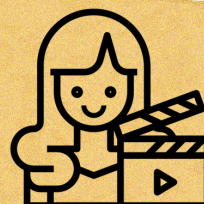

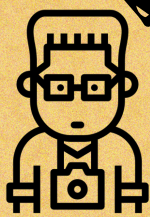

Create memories that  
will last a lifetime.

'Film is forever' as the old  
saying goes. Give your students  
an experience they can look  
back on at any stage in their  
future lives.

Boost confidence, teach new skills and  
promote your school with a unique, easy to  
implement filmmaking programme.

# VIDEO NATION TRAINING

## Choose the Programme that Best Suits You

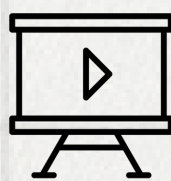

Our service comes in three parts,  
and your school can decide which  
combination best suits you.

1

### LET'S MAKE A FILM PROGRAMME

We provide a Step by Step Programme through our dedicated online learning portal that your teacher can deliver to your students as part of their Curriculum.

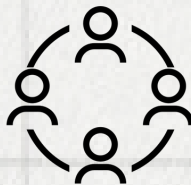

Tutorials

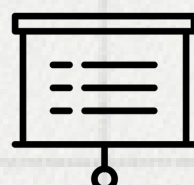

Templates

Our course consists of 12 Modules, each designed to teach a different aspect of filmmaking - from writing scripts and creating storyboards, to recording sound and shooting with a smart device.

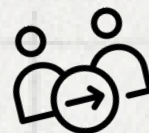

Group Exercises

Information Slides

2

### MENTORSHIP & FACILITATION

Mentor Teachers

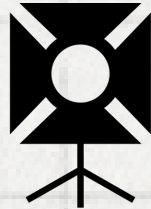

Facilitate the Shoot Day

Video Nation can provide skilled trainers to help your teachers and your students through any stage of the programme at whatever level you require.

Deliver the Course In Person / In Full

Provide Professional Equipment

These options are designed to ensure that students have completed all of the work prior to the Shoot Day, and that the Shoot itself is a success.

3

### EDITING

Our Editors will take the footage from your Shoot Day and edit it into a final professional film.

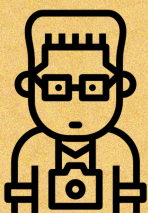

So no matter how the shoot goes, you are guaranteed to end up with a final film that you and your students can be proud of.

Because we know different schools have different needs and priorities, schools can choose one or a combination of these three services.

## Let's Make a Film

Scoil Mhuire,  
Abbeyleix Co Laois  
6th Class, 2022 /23

### Katie Lowry 6th Class Teacher

"My class thoroughly enjoyed this experience. From a teacher's point of view, the weekly modules were super accessible with an appropriate activity which allowed groups to progress easily to the next stage of the project.

It let children experience all aspects of filmmaking while learning about the history of their locality.

Everybody had a job and responsibility which meant everybody was included. It also promoted independence in their learning which was a very valuable lesson."

### Charlie

"Video Nation gave me a great opportunity to learn about filmmaking, script writing, history and SPHE in a fun way. I really enjoyed it."

### Saoirse

"Fascinating, exciting and educational. It taught me about all of the jobs and responsibilities both on and off camera."

### Donnnchadh

"I had a great time working on this film. It was a great way to learn about our local history in a fun and interactive way."

### Gearóid

"I had so much fun making our film. Liam included everyone and taught us a lot about what it is like to make a movie, and how important everyone's job was, both in front of and behind the camera."

### Katie

"I really enjoyed making these films with my classmates. Liam and Robert were great help. It was great fun to learn about the history of Abbeyleix. I loved being a director and an actor."

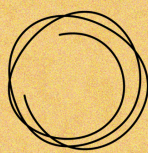

### Freddie

"It was nice to experience the process of how movies are made and to actually be the one doing all of it."
